S890PMFR7

**90CM "Colonial" Electric Multifunction Oven,
Cream, with Gold Aesthetics
Energy rating B**

EAN13: 8017709107697

6 functions

48cm reduced height model

Analogue clock and auto finish

Double glazed removable door

Cooling fan

Rotisserie

Standard accessories:

Roasting/grill pan

Chrome shelf

Rotisserie kit

Nominal power: 3.0 kW

Conventional: 1.16 kW/h

Forced air convection: 1.11 kW/h

Oven capacity 70 litres

30 Amp power supply required

Functions

Options

- **KITPC97** - Stay clean liners
- **PPR1** - Pizza plate

Versions

- **S890AMFR7** - Anthracite

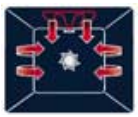
90 cm
cream
energy rating B

Main Oven

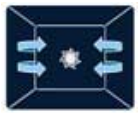
Upper and lower element only:
This method is known as "conventional" cooking, and is suitable for dishes that require a more gentle heat, such as baking. The oven needs to be pre-heated to the required temperature, and is best suited for single items, such as large cakes e.g. Christmas cake. Best results are obtained by placing food in the centre of the oven.

Grill element:
This allows rapid cooking and browning of foods. Best results can be obtained from using the top shelf for small items, the lower shelves for larger items, such as chops or sausages. Cooking using this method should be carried out with the door closed, unless instructed to do otherwise.



Fan with grill element:
Please note: cooking in this mode is conducted with the door closed. The fan reduces the fierce heat from the grill, providing an excellent method for grilling a range of foods, chops, steaks, sausages etc. without having to turn the food during cooking. This gives good results, reduces drying out of foods, and gives even browning and heat distribution, the top two shelves being recommended for use. The lower area of the cavity can also be used to keep other items warm at the same time. An excellent facility to use when cooking a grilled breakfast.

Fan with upper and lower elements:
The elements combined with the fan aim to provide more uniform heat. This is a similar method to conventional cooking, so pre-heat is required. This is not as effective as circulaire cooking but can also be used to cook biscuits and pastry.



Snowflake:
With the switch on this symbol, no heating is possible even if the thermostat is turned.

Rotisserie:
The rotisserie (where installed) works in combination with the grill element to brown foods to perfection.
